# COAL TAR TOPICAL SOLUTION USP

- ❖ **Coal Tar belongs to a class of drugs known as keratoplastics. It works by causing the skin to shed dead cells from its top layer and slow down the growth of skin cells. This effect decreases scaling , dryness and itchiness from this skin condition.**
- ❖ **This medication is used on the hair/scalp to treat dandruff and other scaly, itchy skin conditions (psoriasis or seborrheic dermatitis) .**

# **WATER-TAR™**

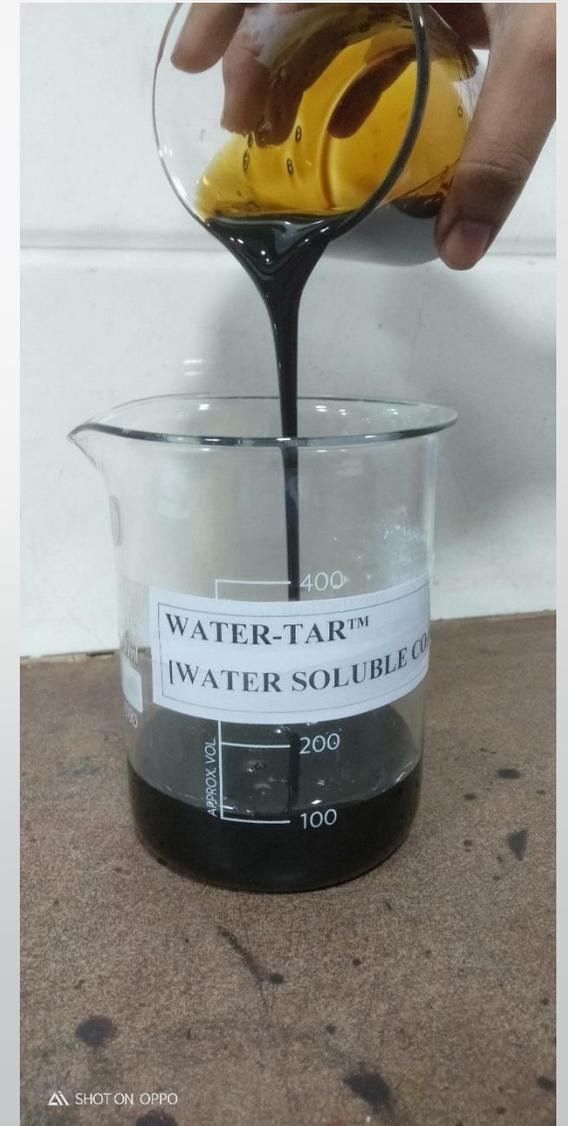

## **[WATER SOLUBLE COAL TAR]**

**Description : Amber Colour Clear Liquid**

**Solubility In Water – Clear Soluble**

**Coal Tar Content : 20% – 25%**

**Helps control seborrheic dermatitis , psoriasis, dandruff for the relief of symptoms associated with psoriasis and seborrheic dermatitis, including itching, scaling , flaking, redness and irritation of skin. Helps prevent recurrence.**

# **WATER-TAR™**

## **[WATER SOLUBLE COAL TAR]**

**This can be used in shampoos incorporating**

**Ketoconazole 2%**

**Or**

**Salicylic Acid 2%**

**Also can be used in Gels & Ointments**

## ❖ **Water Soluble Coal Tar + Ketoconazole Combination**

- **This is a combination of two medicines: Ketoconazole and water soluble Coal Tar which treat dandruff. Ketoconazole is an antifungal. It works by stopping the growth of dandruff-causing fungi by preventing them from forming their own protective covering . Coal Tar is a keratolytic medicine which helps break down the skin clumps on scalp and relieves itching and flaking associated with dandruff.**

## ❖ **Water Soluble Coal Tar + Salicylic Acid Combination**

- **Water Soluble Coal Tar & Salicylic Acid are the active ingredients ,these combination works by possessing the keratolytic and comedolytic properties; peeling on the skin lipid film in acne; removing the intercellular lipids which are linked treating psoriasis .**
